An aerial photograph of a city, likely Lyon, France. The foreground is dominated by a dense residential area with numerous buildings featuring red-tiled roofs and light-colored facades. In the middle ground, several modern skyscrapers rise above the traditional architecture. On the left, a tall, dark blue glass skyscraper stands out. In the center, a smaller, dark blue skyscraper is visible. On the right, a tall, cylindrical skyscraper with a distinctive conical top is prominent. The background shows a clear blue sky with a few white birds in flight. The overall scene is a mix of old and new urban development.
